Dear Kathy,

The Department of Energy (DOE) has completed development of the Draft Resource Conservation and Recovery Act Facility Investigation/ Remedial Investigation (RFI/RI) Report for Operable Unit 3 (OU 3) at the Rocky Flats Environmental Technology Site (RFETS). This report summarizes the results of the investigation of offsite contamination from Rocky Flats and calculates the risk to human health.

The RFI/RI Report is currently being reviewed by the Environmental Protection Agency (EPA) and the Colorado Department of Public Health and Environment (CDPHE). The draft document will be revised based on the comments received to produce the final version of the report. Your comments on the document would be greatly appreciated.

If you should have immediate questions concerning this document, I can arrange a presentation for you and other interested members of your organization.

The completion of the final version of this document is on a very strict schedule, thus to incorporate your comments they should be submitted to me no later than December 11, 1995.

If you wish to schedule a presentation or have any other questions, please call me at (303) 966-5921. Comments should be addressed to the following:
